Getting the Most Out of Your Mobile Data

- Use Wi-Fi wherever possible
- Turn off apps that update automatically
- Manage your data usage via Southern Phone SMS data alerts
- Sharing your Internet connection via tethering is not recommended. This may lead to additional data charges once the existing data credit has been used

International Roaming

Making and receiving calls overseas is excluded from your call credit. These calls and data rates are outside our control. Roaming charges are higher than charges for international calls from Australia and data usage may be more expensive. Customers may also be charged for both making and receiving calls while overseas. We strongly recommend you do not use International Roaming but buy a local SIM card when you arrive at your destination.
